

Build Your Founder Brand *with AI*

Ninety minutes to the model. Fourteen days to the asset.

Here is what you will walk away with.

In ninety minutes, you *build* the model.

In fourteen days, you *own* the asset.

Build Your Founder Brand with AI · *Powered by the science of influence*

The MAGNA Model.

Five pillars, one compounding asset.

01

IDENTITY

Who you are and
why it matters

02

NARRATIVE

The story only you
can tell

03

SYSTEM

The engine that
runs without you

04

REACH

Turning signal into
audience

05

REVENUE

Converting
attention into
income

CONSISTENCY × VALUE = COMPOUNDING

Two weeks. *One living asset.*

WEEK ONE Build the foundation and the engine · Authority · Liking · Commitment

DAY 01	DAY 02	DAY 03	DAY 04	DAY 05	DAY 06	DAY 07
Niche & Purpose	Identity & Visual	Strategy & Calendar	Signature Story	Content & Repurpose	Profiles & Hub	Series & Lead Magnet

WEEK TWO Distribute, monetize, compound · Reciprocity · Social Proof · Scarcity · Unity

DAY 08	DAY 09	DAY 10	DAY 11	DAY 12	DAY 13	DAY 14
Authority & Search	Community & Collab	Social & Video	Email List	Offers & Products	Live & Income	Measure & Plan 90

CONSISTENCY × VALUE = COMPOUNDING

A brand *multiplies*. It *does not* add.

BRAND = IDENTITY × NARRATIVE × SYSTEM × REACH × REVENUE

One zero collapses the whole. Strength in one term can never rescue a zero in another.

01
IDENTITY

Who you are
before the
performance
begins.

02
NARRATIVE

The reason the
market should
care.

03
SYSTEM

The engine that
runs without
inspiration.

04
REACH

The distance your
signal travels.

05
REVENUE

Where attention
becomes income.

FINGER 1 OF 5

Identity

Who you are before the performance begins.

DEFINITION

The core POV, values, and voice that make you unmistakably you.

EXAMPLE

A founder known for blunt, data-first decisions:
recognizable in one line.

APPLY IT

Name your three non-negotiable beliefs. *Say them in every message.*

AI PROMPT

Act as a brand strategist. Based on my work in [field], identify the three core beliefs that make my point of view unmistakable, then write a one-line identity statement I can repeat in every post.

Narrative

“The story that frames everything you publish.”

DEFINITION

The throughline that gives your content meaning and momentum.

EXAMPLE

A founder's ‘why’ turning scattered posts into one unfolding journey.

APPLY IT

Anchor every post to one core story your audience can retell.

AI PROMPT

Act as a brand storyteller. Here is my origin story: [paste 3-4 sentences]. Distill it into one signature narrative line I can repeat everywhere, plus three supporting story beats.

System

“The engine that turns ideas into a steady stream of content.”

DEFINITION

The repeatable process that produces your content without burning you out.

EXAMPLE

One weekly recording session, sliced into a week of posts.

APPLY IT

Build the workflow once... let it run so output never depends on motivation.

AI PROMPT

Act as a content systems architect. My three content pillars are [A, B, C]. Build me a repeatable weekly publishing system: format per platform, a signature series, and one idea turned into five posts.

Reach

“How your message finds people who have never heard of you.”

DEFINITION

The channels and tactics that put your work in front of new eyes.

EXAMPLE

A post that gets shared carries you into a stranger’s feed.

APPLY IT

Make every piece shareable so your audience does the distribution for you.

AI PROMPT

Act as a distribution strategist. My niche is [X] and my audience is [Y]. Map where they already gather, three collaboration angles, and a lead magnet that earns an email in exchange for real value.

FINGER 5 OF 5

Revenue

“Where attention finally turns into income.”

DEFINITION

The offers and paths that convert your audience into paying customers.

EXAMPLE

A cohort course the audience asks for after months of free value.

APPLY IT

Name one clear offer your best content naturally leads people toward.

AI PROMPT

Act as a monetization advisor. My expertise is [X] and audience is [Y]. Design four income streams ranked by speed-to-revenue, with the first offer I should launch and how to price it.

*Persuasion is no longer an art.
It is a science.*

Robert Cialdini • 7 Principles of Influence

Why people say *yes*

A brand does not just inform. It persuades. Robert Cialdini spent four decades cataloguing the seven forces that move people to act. Every pillar of this masterclass is engineered around one of them. You are not posting. You are pre-suading.

PRE-SUASION

The privileged moment for change is the instant before your message lands. Optimal persuasion is achieved only through optimal pre-suasion. Your brand is the soil. Your content is the seed.

01

Reciprocity

Give first;
people return
the favor.

02

Commitment

Small yeses
lead to larger
ones.

03

Social Proof

In doubt,
people follow
others.

04

Authority

Credentials
and proof earn
trust.

05

Liking

We say yes to
those we relate
to.

06

Scarcity

What is rare
feels more
valuable.

07

Unity

Shared identity
accelerates
all.

Reciprocity

“Give first : and people feel compelled to give back.”

DEFINITION

People feel obligated to return a favor, gift, or concession : the debt is paid before it is even asked for.

EXAMPLE

A free 20-page playbook that solves a real problem makes readers feel they owe you their attention ... and their trust.

APPLY IT

Lead every launch by giving your best framework away free. The audience that benefits becomes the audience that buys.

AI PROMPT

Act as a generosity strategist. My audience is [describe]. List five high-value things I can give away free this month that cost me little but make people feel they owe me a reply.

Commitment

“Small yeses today become big yeses tomorrow.”

DEFINITION

People act consistently with prior public commitments.

EXAMPLE

A free challenge sign-up makes finishing far more likely.

APPLY IT

Ask for one tiny action first, then build toward the offer.

AI PROMPT

Act as a habit coach. Help me design a public commitment: a posting cadence and a 'streak' I announce to my audience. Give me the exact announcement post and a 30-day tracking plan.

Social Proof

“We follow the crowd : especially when unsure.”

DEFINITION

People copy the actions of others like them.

EXAMPLE

“10,000 founders use this” beats any feature list.

APPLY IT

Show testimonials, counts, and logos beside every claim.

AI PROMPT

Act as a social-proof editor. Here are three raw client results: [paste]. Turn each into a one-line proof point I can put on my profile, plus a short testimonial request message to send clients.

Authority

“We defer to credible experts.”

DEFINITION

People trust those who signal expertise and credentials.

EXAMPLE

A cited result earns more trust than a bold claim.

APPLY IT

Lead with proof: data, results, and named credentials.

AI PROMPT

Act as a positioning expert. Given my background [paste], write three 'authority lines' that signal credibility in my niche without sounding arrogant, plus the proof I'd need to back each one.

Liking

“We say yes to people we like.”

DEFINITION

We are persuaded by people who feel similar, familiar, and warm.

EXAMPLE

Sharing your own failures makes an audience root for you.

APPLY IT

Show the human behind the brand, flaws, story, and all.

AI PROMPT

Act as a brand-voice coach. Based on these personal details [paste], suggest three authentic ways to show the human behind my brand: a flaw, a backstory, and a value, each as a short post idea.

Scarcity

“We want what is rare or running out.”

DEFINITION

Limited supply or time raises perceived value and urgency.

EXAMPLE

A cohort capped at 50 seats sells out faster than an open one.

APPLY IT

Cap access, set deadlines, and never fake the limit.

AI PROMPT

Act as an offer strategist. For my product [describe], design an ethical scarcity mechanism (limited spots, cohort window, or deadline) and write the announcement copy that makes it feel real, not fake.

Unity

“We act for those who are one of us.”

DEFINITION

Shared identity, not just liking, turns an audience into a tribe.

EXAMPLE

“Fellow founders” language signals you are on the same team.

APPLY IT

Name your community and speak to a shared mission.

AI PROMPT

Act as a community architect. For my audience [describe], invent a shared identity: a name for my community, an insider phrase or ritual, and a belief we all hold, so members feel part of a tribe.

Why people say *yes*

A brand does not just inform. It persuades. Robert Cialdini spent four decades cataloguing the seven forces that move people to act. Every pillar of this masterclass is engineered around one of them. You are not posting. You are pre-suading.

PRE-SUASION

The privileged moment for change is the instant before your message lands. Optimal persuasion is achieved only through optimal pre-suasion. Your brand is the soil. Your content is the seed.

Reciprocity

Give first;
people return
the favor.

Commitment

Small yeses
lead to larger
ones.

Social Proof

In doubt,
people follow
others.

Authority

Credentials
and proof earn
trust.

Liking

We say yes to
those we relate
to.

Scarcity

What is rare
feels more
valuable.

Unity

Shared identity
accelerates
all.

Two weeks. *One living asset.*

WEEK ONE Build the foundation and the engine · Authority · Liking · Commitment

DAY 01	DAY 02	DAY 03	DAY 04	DAY 05	DAY 06	DAY 07
Niche & Purpose	Identity & Visual	Strategy & Calendar	Signature Story	Content & Repurpose	Profiles & Hub	Series & Lead Magnet

WEEK TWO Distribute, monetize, compound · Reciprocity · Social Proof · Scarcity · Unity

DAY 08	DAY 09	DAY 10	DAY 11	DAY 12	DAY 13	DAY 14
Authority & Search	Community & Collab	Social & Video	Email List	Offers & Products	Live & Income	Measure & Plan 90

CONSISTENCY × VALUE = COMPOUNDING

Your 14 days, *built by AI.*

STEP 01

GENERATE

From my niche [X] and audience [Y], draft 14 daily content ideas, escalating from intro to offer. One line each, labeled Day 1 to Day 14.

STEP 02

EXPAND

Take Day [N]'s idea and write the full post in my voice: a scroll-stopping hook, a value-packed body, and one clear call to action.

STEP 03

REPURPOSE

Turn that post into a 30-second video script, a 5-slide carousel, and a short email. Keep the core idea, adapt the format to each channel.

AI DRAFTS • YOU DIRECT • THE ASSET COMPOUNDS

Four prompts. One volunteer. *Live.*

The four prompts I run on a volunteer in the room. Watch a stranger's brand take shape in minutes, each demo powered by a principle of influence.

FIND THE NICHE

AUTHORITY

Act as a positioning strategist. I am a [role] with [years] in [domain]. Give three niches at the intersection of what I know, what my audience pays for, and what few can claim.

NAME THE STORY

LIKING

Write my signature story: the world before, the rupture, the discovery, the world I help others reach. Under 200 words. Plain and declarative.

BUILD THE MAGNET

RECIPROCITY

Based on my niche and my audience's top frustration, propose three lead magnets that solve one painful problem in under twenty minutes. Give first.

MAP THE MONEY

SCARCITY

Map four income streams ranked by time-to-first-dollar and margin. For each: offer name, price band, and the one objection I must answer.

The model is yours *now*.
The asset is yours in *fourteen days*.

Start now : the brand compounding begins the day you do.

Build Your Founder Brand with AI · Powered by the science of influence

Thank you.

Let's build something that lasts.

Shailu Tipparaju

Founder, MAGNA

Shailu@magna.vip | 847 370 3699 | Chicago, USA | www.shailosophy.life

Build your founder brand with AI.

For the presenter, not the room.

Run of show.

The agenda and four segment scripts that follow are stage directions for whoever runs the room, not audience slides.

Ninety minutes, *run of show*

00:00	The Asset Hiding in Plain Sight	PRE-SUASION 8 min
00:08	Identity + Narrative: Find the One Thing	AUTHORITY · LIKING 24 min
00:32	System: Build the Engine Live	COMMITMENT 28 min
01:00	Reach + Revenue: Signal into Income	RECIPROCITY · SCARCITY 22 min
01:22	The Sprint: Your 14 Days	UNITY 8 min

Each segment teaches a pillar, runs one live AI demonstration, names the principle of influence it activates, and moves the room to act.

00:00

The Asset Hiding in Plain Sight

CIALDINI: Pre-Suasion

Alter the focus of attention before the message lands. The brand frame primes every post that follows.

TEACH

The premise and the model on one slide. Most founders are invisible to the market they could own.

LIVE AI

Ask AI to describe you as the market sees you today. The silence is the diagnosis.

ROOM ACTS

Each person finishes one line: I want to be the one the market calls when ____.

A brand begins with who. So do we.

00:08

Identity + Narrative: Find the One Thing

CIALDINI: Authority and Liking

Authority makes claims credible. Liking makes the messenger welcome. Together they open the door.

TEACH

Niche as intersection. Audience as a person, never a demographic. The positioning line and the founder story.

LIVE AI

Run the positioning and audience prompts on one volunteer. An hour of strategy in four minutes.

ROOM ACTS

Each person drafts a one-line positioning statement and an expertise angle that signals authority.

You now have a sentence. A sentence is a seed. The system is the soil.

00:32

System: Build the Engine Live

CIALDINI: Commitment and Consistency

Showing up on a schedule is a public, repeated commitment. Consistency is how trust compounds.

TEACH

Three content pillars. The calendar.
One idea into ten. The signature
series as the anchor of recognition.

LIVE AI

Build a real 14-day calendar from a
participant's pillars, then repurpose
one idea into five formats.

ROOM ACTS

Each person generates their own
14-day calendar and commits to a
publishing cadence.

Inspiration is a guest. A system is a resident. Build for the resident.

01:00

Reach + Revenue: Signal into Income

CIALDINI: Reciprocity, Social Proof, Scarcity

Give value and people return it. Proof shows others already trust you. Scarcity turns interest into action.

TEACH

Profiles and the hub. Distribution through community and collaboration. The lead magnet. Four income streams.

LIVE AI

Generate a lead-magnet concept and a four-stream monetization map live.

ROOM ACTS

Each person drafts a lead-magnet promise that gives first, and selects a first income stream.

Attention is rented. An email list is owned. Build what you own.

The three things that *never bend*

NON-NEGOTIABLE 01

Consistency

A brand is a promise kept on a schedule. Frequency you can sustain beats brilliance you cannot repeat.

Cialdini: **Commitment**

NON-NEGOTIABLE 02

Value

Give until it is uncomfortable. The market remembers who made it smarter, never who shouted loudest.

Cialdini: **Reciprocity**

NON-NEGOTIABLE 03

Voice

AI drafts. You decide. Anything that does not sound like you is a liability wearing your name.

Cialdini: **Liking**

*You will not finish with a perfect brand. You will finish with a living one.
Perfect is a museum. Living is a market.*

Each pillar carries a *force*

Every pillar is the delivery system for a specific principle of influence.

	IDENTITY + PROOF	Authority	Credentials, case studies, and demonstrated results make your claims safe to believe. <i>Show the receipts.</i>
	NARRATIVE	Liking	Similarity, warmth, and shared goals. People say yes to those they relate to. <i>Your story is the bridge.</i>
	SYSTEM	Commitment & Consistency	Showing up on a schedule is a public commitment. <i>Consistency compounds trust over time.</i>
	REACH + VALUE	Reciprocity & Social Proof	Give value freely and people return it. Community and <i>collaboration prove others already trust you.</i>
	REVENUE + COMMUNITY	Scarcity & Unity	Limited offers create urgency. A cohort built on <i>shared identity accelerates every other force.</i>
